

KUSHAL KOTHARI

AI Engineer | LLM Systems & Production ML

New York, NY | kk5268@nyu.edu | +1 (917) 984-1096 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Forward-deployed AI engineer who builds and ships production **LLM systems** (RAG, multi-agent orchestration, tool-calling) and partners directly with stakeholders to turn ambiguous problems into deployed, measurable solutions. Shipped AI features handling **thousands of automated customer interactions** and analytics pipelines spanning **10+ networks** and **billions of records**. NYU Computer Science, Google Summer of Code alum, and open-source contributor (**Apache APISIX**, **Linux kernel**).

TECHNICAL SKILLS

Languages: Python, SQL, C++, TypeScript, Java, Bash

AI & LLMs: RAG, Multi-Agent Systems (**CrewAI**, **LangChain**, **LangGraph**), Prompt Engineering, Tool Calling, OpenAI / GPT APIs, Streamlit

Data & Cloud: BigQuery, Snowflake, Databricks, Spark, Kafka, Airflow, AWS (Lambda, S3, EC2, IAM), PostgreSQL, MongoDB

Engineering: REST APIs, Docker, Kubernetes, Git, CI/CD, PyTest, Tableau, Jira

EXPERIENCE

Optimum Media (Altice USA), AI Engineer

Oct 2025 – Present | Long Island City, NY

- Built a **LangChain-powered Text-to-SQL agent** with robust **query guardrails**, allowing stakeholders to query large-scale viewership datasets and **reducing ad-hoc ticket volume by 40%**.
- Developed an **internal RAG assistant** over metric definitions and SOW specifications, minimizing team lookup and client onboarding friction **from days to minutes**.
- Deployed an **LLM anomaly-detection pipeline** for automated **root-cause analysis** on ACR data feeds, proactively flagging critical data-quality faults **before client-facing delivery**.
- Scaled **LLM-based metadata tagging** across **billions of rows** of viewing data, replacing manual tracking pipelines with automated, **semantic classification**.
- Optimized **LLM inference performance** via prompt token-trimming and caching, **cutting API overhead by 30%** and building an **offline evaluation harness** to eliminate regression.

SalesCaptain, AI Engineer Intern

Sep 2025 – Nov 2025 | New York, NY

- Built and deployed production **LLM** features for customer engagement across **web chat, SMS, and voice**, handling **thousands of automated interactions**.
- Integrated **GPT** models into production APIs with **retrieval-augmented generation (LangChain)** grounded in live customer and product data, improving answer relevance and reducing manual handoffs.
- Designed prompt-chaining and **tool-calling** logic for multi-step user intents (follow-ups, reminders, payment coordination) and **cut inference latency ~30%** via asynchronous processing.

Media.net, Product Analyst

Sep 2022 – Aug 2023 | Mumbai, India

- Automated **15+ ad-delivery QA pipelines** (API payloads, pixel triggers, ad rendering) for new partners including **Forbes** and **BMW**, reducing manual QA time **~70%**.

Google Summer of Code (Erlang Ecosystem Foundation), Software Developer

Apr 2021 – Aug 2021 | Remote

- Built a production **Erlang** client library for secure mesh networking across **40+ distributed test environments**; improved P2P replication reliability under high node churn, contributing to an **IEEE publication**.

PROJECTS

Multi-Agent Competitor Analysis System

CrewAI, RAG, LLMs

[GitHub](#)

- Production multi-agent system orchestrating research, analysis, and report agents with shared memory; added caching and token-trimming to **cut LLM API costs ~25–30%**, deployed via **Streamlit**.

Chronicle — Chrome Extension

Manifest V3, Vue 3, TypeScript

[GitHub](#)

- Designed, built, and shipped a **Manifest V3** browser extension end-to-end (**Vue 3 / TypeScript** UI, background service worker, state persistence, and **Chrome Web Store** release); published a technical architecture deep-dive on **Medium**.

EDUCATION

New York University M.S. in Computer Science

Sep 2023 – May 2025

University of Mumbai B.E. in Computer Engineering

Jul 2018 – Jun 2022

CERTIFICATIONS & PUBLICATION

AWS Certified Solutions Architect – Associate (2025) **AWS Certified Cloud Practitioner (2025)**

Tor vs. Yggdrasil: A Comparative Study of Two Communication Systems — IEEE ICICT 2022.
